

Bloating, Rashes, Headaches, Lethargy, Diarrhoea, Gas

**Allergies affect everyone in different ways;
stop living in pain now!**

145 million people in the United States suffer from allergies, which can affect your daily life. In some cases, these could be life threatening. If you break out in blotches, acne or eczema, it is probably a reaction to something you're eating.

If you find yourself in pain regularly, it's probably because you don't know what not to put in your body. Change your diet and change your life with an allergy test, remove the guesswork with a non-invasive test that gives you accurate results.

✓ **Itchy eyes**

✓ **Runny nose**

✓ **Sneezing**

✓ **Coughing**

✓ **Light head**

Bloating, Rashes, Headaches, Lethargy, Diarrhoea, Gas

**Allergies costs the US \$18 billion+
each year!**

Feeling blocked up or tired? Like 3 out of 10 Americans, you could have an allergy to your pet. 1 in 7 people are gluten intolerant and 1 in 4 should avoid dairy, allergies that go undiagnosed can cause very real harm.

Our test can accurately diagnose your allergies too. Unlike some companies that label an allergy as 'gluten intolerance', you will get a refined diagnosis that specifies the individual components you need to avoid.

✓ **Avoid unnecessary diets**

✓ **Stop allergy shots**

✓ **Decrease your exposure**

✓ **Eliminate harmful foods.**

✓ **Stop suffering!**

Accurate. Quick.
Scientific. Safe.

Non IgE-mediated allergy testing holds the key.

Feeling blocked up or tired? Like 3 out of 10 Americans, you could have an allergy to your pet. 1 in 7 people are gluten intolerant and 1 in 4 should avoid dairy, allergies that go undiagnosed can cause very real harm.

Our test can accurately diagnose your allergies too. Unlike some companies that label an allergy as 'gluten intolerance', you will get a refined diagnosis that specifies the individual components you need to avoid.

- ✓ **Cost effective**
- ✓ **Over 250,000 tests completed**
- ✓ **Over 10 years testing allergies**

Looking to help people? Earn as you sell? Work with a reputable company?

Sign up as an agent for Allergy Testing now.

Our comprehensive non IgE-mediated test takes the guesswork out of your client's food sensitivities, as over 600 food and non-food items will be examined. If you work in pharmaceutical practices or as health professionals, this test is the natural add on.

Taken from a few strands of hair, a fully comprehensive white-labelled report is created to follow your branding. With high upselling potential and a proven track record, earn money through a company you believe in.

- ✓ **300 foods including dairy, wheat and alcohol**
- ✓ **300 non-foods including plants, fabrics and plastics**
- ✓ **Non-invasive means all ages can take the test**
- ✓ **Fast, accurate results sent directly to you or the client**
- ✓ **Becoming an agent is fast and simple**

Suffering from acne had plagued Rebecca since her 20's was there nothing to be done about it?

Rebecca, San Francisco, CA

Doctors suggested weight loss and a new cleaning regime, but that did nothing. Antibiotics, laser treatments, chemical treatments and microdermabrasion all did nothing to clear Rebecca's face.

When she saw we had a full money back guarantee, Rebecca ordered and submitted her sample. Following our elimination diet to remove the problematic foods for four weeks, Rebecca feels comfortable in her skin and recommends the test regularly.

After months of trialing different steroid creams, Cort's family weren't sure what to do.

Until they contacted us.

Lisa (Cort's Mum), Charlottesville, VA

Diagnosed with psoriasis in 2014, an allergist, dermatologist and two pediatricians were stumped whilst the problem got worse. Cort was becoming emotional and started to struggle at school too.

A friend suggest an Allergy Test and after sending a sample, a list of items were sent back which included diary and gluten. Cutting out the items allowed his skin to heal in no time and he's back to his perky, smiley self.
